THE BROWN MINECRAFT SMP

■■ ULTIMATE PLAYER SURVIVAL & COMMAND GUIDE

Server Engine: Fabric 1.21.1 (1.21.1-16-bf5852a, Protocol 777) • **Server IP:** 146.56.48.248:25565
Gameplay: Pure Survival • 2,087-Item Economy • Land Claims • Graves • Elytra Boost • Member Bot Commands
Discord: https://discord.gg/yeHYbuwJ7P • **Bot Number:** +917577856634 • **Owner:** asingh1905 (+918822786312)

WELCOME TO THE REALM — PLAYER HANDBOOK

Welcome to **The Brown SMP**! This survival realm features a player-driven 2,087-item economy, indestructible death graves, a massive 50,000-block wild exploration frontier, secure land claiming, and balanced Elytra rocket booster mechanics. This handbook contains everything you need to thrive!

1. Connecting & Getting Whitelisted

The Brown SMP runs on high-performance Fabric 1.21.1 with ViaVersion integration, allowing players from multiple Minecraft client versions to connect seamlessly without installing client-side mods.

Step	Connection Detail	Instructions
1. Launch Game	`Minecraft 1.21.1 (Java Edition)`	Open your Minecraft launcher and start standard Minecraft 1.21.1 (ViaVersion supports older/newer clients).
2. Add Server	`146.56.48.248:25565`	Navigate to Multiplayer → Add Server. Enter the server domain in the Server Address box.
3. Whitelist Check	`Enforced Whitelist Protection`	If you are not yet whitelisted, send your in-game username to the server owner or have a friend run /requestaccess.
4. First Spawn	`Protected Spawn Hub`	When you first join, read the rules (/rules) and use /rtp to teleport into the wild to start building!

2. Navigation & Teleportation Master Guide

Every member has full access to convenient teleportation commands to explore with friends and safeguard their bases:

Category	Command Syntax	Usage & Feature Details

Player Teleport	`/tpa <player>`
	`/tpaccept • /tpdeny`
	`/tpa cancel`
		Send a teleport request to a friend. The recipient types /tpaccept to approve or /tpdeny to decline. Type /tpa cancel to abort.

Home Waypoints	`/sethome [name]`
	`/home [name]`
	`/delhome [name]`
	`/homes`
		Sets a home waypoint at your current location (e.g. /sethome base). Type /home base to teleport back anytime. /homes lists all saved waypoints.

Category	Command Syntax	Usage & Feature Details
Death Recovery	`/back`	Instantly returns you to your previous location or your exact Death Location to recover your items!
Wild Exploration	`/rtp`	Randomly teleports you into the wild up to 25,000 BLOCKS away across unexplored terrain. (Cooldown: 15s).
Spawn & AFK	`/spawn` `/afk`	Teleports you to the main central spawn hub, or toggles your AFK (Away From Keyboard) status tag in player list.

3. Land Claims & Anti-Grief Protection (Flan)

Protect your builds, chests, animals, and farms against theft and griefing using the Land Claiming system.

Step-by-Step Land Claiming Guide:

1. **Create a Claim:** Stand in the center of your build and type /claim. This creates a protected cube around your position.
2. **Manage Claim Settings:** Type /flan menu (or /menu) to open the interactive Land Claim GUI to manage flags, PvP rules, and permissions.
3. **Trusting Friends:** Use specific trust commands based on how much access you want to grant:

Trust Command	Access Level Granted	Description
`/trust <player>`	Full Co-Owner Trust	Grants full permission to place blocks, break blocks, access all containers, and use switches.
`/containertrust <player>`	Container Access Only	Allows a player to open chests, furnaces, barrels, and shulker boxes, but CANNOT break blocks.
`/accesstrust <player>`	Door & Switch Access Only	Allows a player to open doors, trapdoors, gates, and press buttons/levers.
`/untrust <player>`	Revoke All Permissions	Removes all trust levels from a player immediately.
`/trustlist`	View Trusted Members	Displays a list of all players currently trusted in your claim.
`/abandonclaim`	Delete Claim	Deletes the current claim and refunds your claim blocks to your pool.
`/trapped`	Escape Locked Claim	Teleports you outside safely if you get locked inside an enemy claim.

4. Economy, Item Shop & Wealth Building (EconomyCraft)

The Brown SMP features a balanced 2,087-item shop. Prices are mathematically calculated from base crafting materials, with all sell prices strictly fixed at **20% of buy price**.

Command	Usage	Functionality
`/shop`	GUI Item Market	Opens the categorized shop menu to browse and purchase building blocks, ores, mob drops, redstone, and gear.
`/sell`	Sell Held Items	Sells the stack of items currently held in your main hand for instant money.

Command	Usage	Functionality
`/worth`	Price Evaluation	Displays the exact market sell value of the item in your hand before selling.
`/bal • /balance`	Check Wallet	Displays your current money balance.
`/pay <player> <amount>`	Transfer Money	Transfers money directly from your wallet to another player.
`/daily`	Daily Bonus	Claims your daily login reward bonus once every 24 hours!

5. Elytra Flight Mechanics & Death Graves

The server features custom mechanics designed for smooth exploration, fair PvP, and item safety:

- **Auto Duration 5 Rockets:** Any firework rocket in your inventory automatically upgrades to **Flight Duration 5** for ~3.2 seconds of continuous smooth propulsion.
- **3-Second Continuous Boost HUD:** When launching while gliding with Elytra, a subtle non-intrusive actionbar countdown appears (*'■ Boost [■■■] 3s' → '2s' → '1s'*) and quietly clears when landing. No annoying broadcasts or lockout delays.
- **Indestructible Death Graves:** When you die, an indestructible Grave spawns at your exact death point holding 100% of your items and XP. It never despawns. Use /back and sneak-click your grave to retrieve all items!
- **Chest Locker:** Type /lock while looking at a chest or door to make it private.

6. Pet Protection & Mount Trust System

All tamed pets (wolves, cats, parrots, horses, donkeys, mules, camels, etc.) are fully protected from griefing and attacks:

Command Syntax	Feature	Description
`/pet`	Pet Hub Menu	Displays the interactive pet management guide and quick command overview.
`/pet trust <player>`	Grant Trust	Allows a friend or ally to ride and interact with your protected mounts.
`/pet untrust <player>`	Revoke Trust	Removes riding permission from a player for your mounts.
`/pet lock`	Lock Mounts	Locks nearby rideable mounts so untrusted players are auto-dismounted.
`/pet unlock`	Unlock Mounts	Unlocks nearby mounts to allow anyone to ride them.
`/pet info`	Status Check	Verifies active pet damage immunity status.

7. Community, Discord & In-Game Support

Need help, want to join the voice chat, or need to contact the server owner? Use our community channels and in-game commands:

Command Syntax	Purpose	Description
`/discord` `/dc`	Official Discord	Displays clickable invite link to join the server Discord community.
`/contact` `/links`	Official Links	Shows all official support channels, Discord invite, and owner email.
`/bugreport <message>`	Bug Reports	Sends an urgent bug report email directly to the server owner for fast resolution.
`/mailowner <message>`	Direct Owner Inquiry	Sends a direct private email inquiry to owner asingh1905.
`/reportplayer <name> <reason>`	Report Misconduct	Reports a player for hacking, toxicity, or griefing. Logs evidence for moderator inspection.
`/requestaccess <note>`	Whitelist Requests	Requests whitelist approval for friends or new members.

COMMUNITY & OFFICIAL SUPPORT PORTAL

Official Discord Server: https://discord.gg/yeHYbuwJ7P
Official Support Email: minecraft.the.brown@gmail.com
Join our Discord to chat with active players, share build showcases, report bugs with screenshots, and receive live announcements!

8. Community Utility Workbench & Media Tools

The server provides interactive digital utility tools accessible via the WhatsApp bot or community bot commands:

Tool	Command Syntax	Usage & Description

Event Stopwatch	`/sw start`
	`/sw lap`
	`/sw stop`
		Precision stopwatch for timing parkour trials, Nether highway sprints, boat races, and boss raids.

Word Dictionary	`/dict <word>` `/define <word>`	Look up instant Oxford/Wiktionary definitions, phonetic pronunciations, synonyms, and usage examples.
QR Code Generator	`/qr <text_or_url>`	Generates a clean, scannable PNG QR code for sharing base coordinates, Discord links, or shop prices.
Barcode Generator	`/barcode <text> [code128|ean13]`	Generates Code128 or EAN-13 barcodes for in-game trading currencies and shop inventory labels.

9. Player Ticket Submissions & Dispute Reporting

Encountered a bug, experienced a grief incident, or need staff assistance? Submit an official ticket:

Submission Method	Syntax / Format	Resolution Flow
In-Game Bug Report	`/bugreport <details>`	Directly alerts online staff and delivers an urgent incident notice to the server admin email.
In-Game Player Report	`/reportplayer <target> <reason>`	Logs the incident coordinates, nearby block modifications, and timestamps for Ledger forensic audit.

Submission Method	Syntax / Format	Resolution Flow
WhatsApp Help Desk	`/report bug <desc>` `/report player <name> <reason>`	Creates an authoritative tracking ticket with unique ID (e.g. TCK-1042). Updates are sent via WhatsApp.

10. Accessing Shared Clipboards, Transfers & Short URLs

Server staff and players frequently share schematics, texture packs, map coordinates, and resource guides via human-friendly web links:

Service Portal	Human-Friendly URL	Features & Security
Temporary Clipboard	`https://146.56.48.248.sslip.io/c/<slug>`	View formatted build guides, command block scripts, and coordinates. Includes 1-click clipboard copy and auto-expiry.
File Transfer Workspace	`https://146.56.48.248.sslip.io/t/<slug>`	Download event maps, resource packs, and WorldEdit schematics. Download individual files or as a combined ZIP archive.
Server Rules & Status	`https://146.56.48.248.sslip.io/s/<slug>`	Direct browser access to live server rules (/s/server-rules) and uptime status (/s/status).

11. WhatsApp Bot Member Commands & Printable Guides

Every whitelisted player can interact with the 24/7 WhatsApp bot (+917577856634) using **48 Member-tier commands** and access printable PDF utility tools:

Category	Sample Commands	Player Functionality
Server Diagnostics	`/mc status` • `/mc ping` `/mc players` • `/mc rules`	Check live server status, TPS, online player count, latency, and official gameplay rules from WhatsApp.
Digital Utilities	`/sw` • `/dict <word>` `/qr <text>` • `/barcode <text>`	Parkour stopwatch, dictionary lookup, custom QR generator for base coordinates, and barcode creator.
Clipboards & Files	`/clip view <slug>` `/transfer list`	Read shared community clipboards, copy build notes, and inspect available temporary transfer files.
Printable Guides	`/print passport <image>` `/pdf info <file>`	Generate 4x6" passport photo sheets, inspect PDF metadata, and request printable survival pocket booklets.
